Subject: Comment on Land Use Panel v. Mark and Julie Pernokas

To NRB,

The road in question is in a steep area which is prone to erosion. As a land owner in Westmore I am opposed to such lake shore devastation. Many of the homes and cottages on the West side of the lake blend in with the landscape. This road is an eye sore and clearly detracts from one of the most pristine lakes in Vermont. The road in question should not have been built without proper permitting.
